

# CLINICALLY ANTI-AGING PROTOCOL

Lackluster, fatigued skin has met its match with exfoliating marine botanicals and salicylic acid. Stimulate healthy skin renewal while delivering the latest in vitamin C brightening technology. Refine skin texture while preventing future fine lines with the triple-threat to aging skin in the purely clinical delivery of retinaldehyde, adenosine, and resveratrol.

## Products Needed:

BIO Enzyme Cleanser	pH Solution
PRO Exfoliating Cleanser	PRO Brite-Plus Serum
Primer Plus Solution	PRO Retinal-Plus Treatment
Green Power	MYSTIQ Perfecting Eye Crème and BIO Lip Factor
PRO Brightening Masque	SPF Solar Shield 30 Hydrating or BB Brite 30
ICE Clear Stick	

## Treatment Protocol:

**1**  
**1st CLEANSE:** Cleanse skin with **BIO Enzyme Cleanser**, removing eye makeup if applicable.

**BALANCE:** Spritz **pH Solution** across the entire facial area and allow to absorb.

**2**  
**2nd CLEANSE:** Cleanse with **PRO Exfoliating Cleanser**. Massage for 30 seconds - 2 minutes depending on the skin need. Remove with cleansing sponges or a barber towel.

**BRIGHTEN:** Apply 3-4 drops of **PRO Brite-Plus Serum** massaging into skin.

**3**  
**DEGREASE:** Using gauze, apply **Primer Plus Solution** beginning at the forehead, around the perimeter of the face, down the nose, across the cheeks, chin, upper lip. Some activity may be felt with the combination of lactic, salicylic, and glycolic acids preparing a clean canvas for the exfoliation step. This is normal.

**HYDRATE:** Apply **PRO Retinal-Plus Treatment** until completely absorbed.

**4**  
**EXFOLIATE:** Combine 15 ml **PRO Brightening Masque**, ¼- ½ capful **\*Green Power**, and two pumps **ICE Clear Stick** in a mixing dish. With a mask brush, apply generously to the skin for 1-2 minutes. Using gentle massage movements, the mixture can be worked into the skin for up to two minutes. The client may feel some stimulation, which is normal. Skin may also have visible erythema. Remove mixture with a cool barber towel. \*Due to the nature of this natural exfoliating powder, it is normal for clients to feel some activity up to 24 hours after the mixture is removed.

**5**  
**EYES & LIP:** Gently massage **MYSTIQ Perfecting Eye Crème** into the eye area. With an applicator, apply **BIO Lip Factor** to lips.

**6**  
**PROTECT:** Apply **SPF Solar Shield 30 Hydrating** or **BB Brite 30** with a pat-n-roll technique over entire face for sun protection.
