

EVOLUTIONARY HYDRATING PROTOCOL

Hydrate and restore healthy skin function enriching barrier activity with epigenetic technology and vitamin C. A unique blend of enzymes, peptides, and hydroxy acids exfoliate built up dead skin cells while tightening peptides awaken tired skin. Refresh and replenish skin's hydration evolving to a youthful appearance

Products Needed:

MYSTIQ iLuminating Cleanser
BIO Enzyme Cleanser
ICE Refining Masque
BIO Hydrating Mineral Masque
Hydroxy 30
MYSTIQ Cryo Masque
pH Solution

PRO Lite Serum
BIO Hydra C Serum
BIO Lift Crème
MYSTIQ iLuminating Beauty Oil
MYSTIQ Perfecting Eye Crème
BIO Lip Factor
SPF or BB Crème of Choice

Treatment Protocol:

1st CLEANSE: Cleanse skin with **MYSTIQ iLuminating Cleanser**, removing eye makeup if applicable.

2nd CLEANSE: Cleanse with the **BIO Enzyme Cleanser**. Remove with cleansing sponges or a barber towel.

DETOX: Apply **ICE Refining Masque** to facial area. Allow to sit for about 3-5 minutes not allowing to completely dry, then layering the **BIO Hydrating Mineral Masque** over the top. Massage into the skin for 1-3 minutes then remove with a tepid barber towel or cleansing sponges.

EXFOLIATE: Combine 2 parts **BIO Enzyme Cleanser** with 1 part **Hydroxy 30** mixing with a masque brush. Apply to skin with a brush or gauze, gently massaging in if applicable. Allow solution to sit for 3-5 minutes assessing skin and activity. Remove the solution with cool water; client's activity level may increase when the solution is neutralizing. This is normal. Allow the skin to rest for a minute to assess activity. Repeat removal/neutralizing process if needed.

MASQUE: Open package from the top and remove the two-piece **MYSTIQ Cryo Masque**. Peel off the protective liner applying the first section from the nose smoothing up to the forehead and the outer edges of the face. Repeat with the second piece from the nose to the chin. Then masque will begin to feel cold and will continue to get colder. Allow the skin to rest for 15 minutes. Gently remove from skin and do not rinse off.

BALANCE: Spritz **pH Solution** across the entire facial area and allow to absorb.

BRIGHTEN: Apply 3-4 drops of **PRO Lite Serum** massaging into skin.

HYDRATE: Massage 1 pump of **BIO Hydra C Serum** into skin until completely absorbed.

RESTORE: Apply **BIO Lift Crème** working into skin.

EYES & LIPS: Gently massage **MYSTIQ Perfecting Eye Crème** into eye area. With an applicator, apply **BIO Lip Factor** to lips.

PROTECT: Apply **SPF or BB Crème** of choice with a pat-n-roll technique over entire face for sun protection.
